

# DEMONSTRATION ON PEOPLESOFT ON-MOBILE APPLICATION

## Application Demonstration

People Tech's, PeopleSoft On-Mobile application is a one of its kind portable solution which enables users to connect and carry out time-bound activities like Time Entry, Self-service tasks, Workflow Approvals etc... by authenticating against PeopleSoft delivered sign-on process.

### KEY FEATURES:

#### Quality

Built using delivered PS objects without customizations. Can be molded to meet the client's requirements.

#### One of its kind

Brings two Enterprise solutions (PS HCM & Finance) under one application maintaining data integrity to the fullest.

#### As secure as PeopleSoft itself

Uses the same authentication algorithm as in delivered by PeopleSoft (HASH with SALT).

## Limitless

Scope of this application can be extended to meet your business needs. We at People Tech, have the right competency for it.

## Maintenance

The application uses APIs provided from PeopleSoft and talks back and forth, retrieving and loading data between the systems. All the APIs are stored in a separate server/cloud where it can be configured for any number of environments. This architecture helps mobile users get periodical updates whenever a new API is built or an existing API is modified.

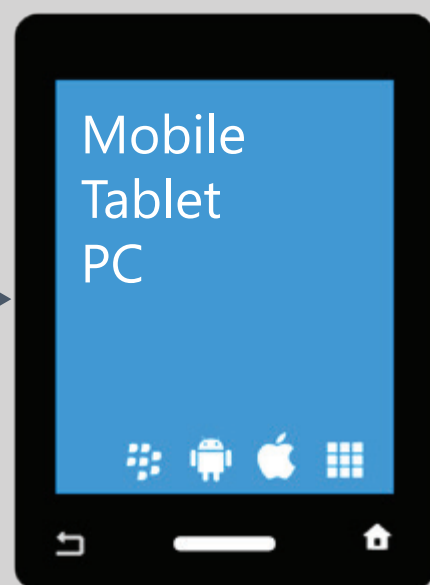

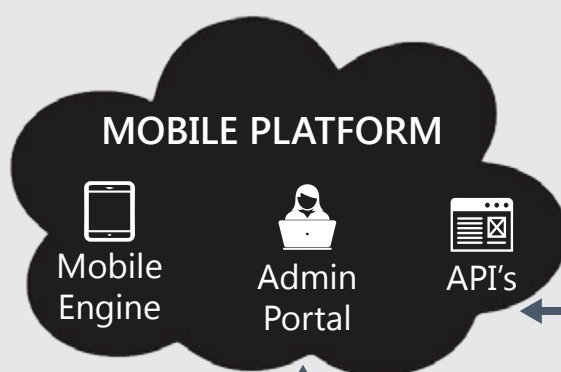

## Compatible

This application is fluidic in nature and can be fit into PC/Tablet/Mobile devices across all major operating systems like iOS, Win8, Android and Blackberry.

## OUTLINE FOR A FULL APP DEMO:

### CLIENT ARCHITECTURE

### END USER

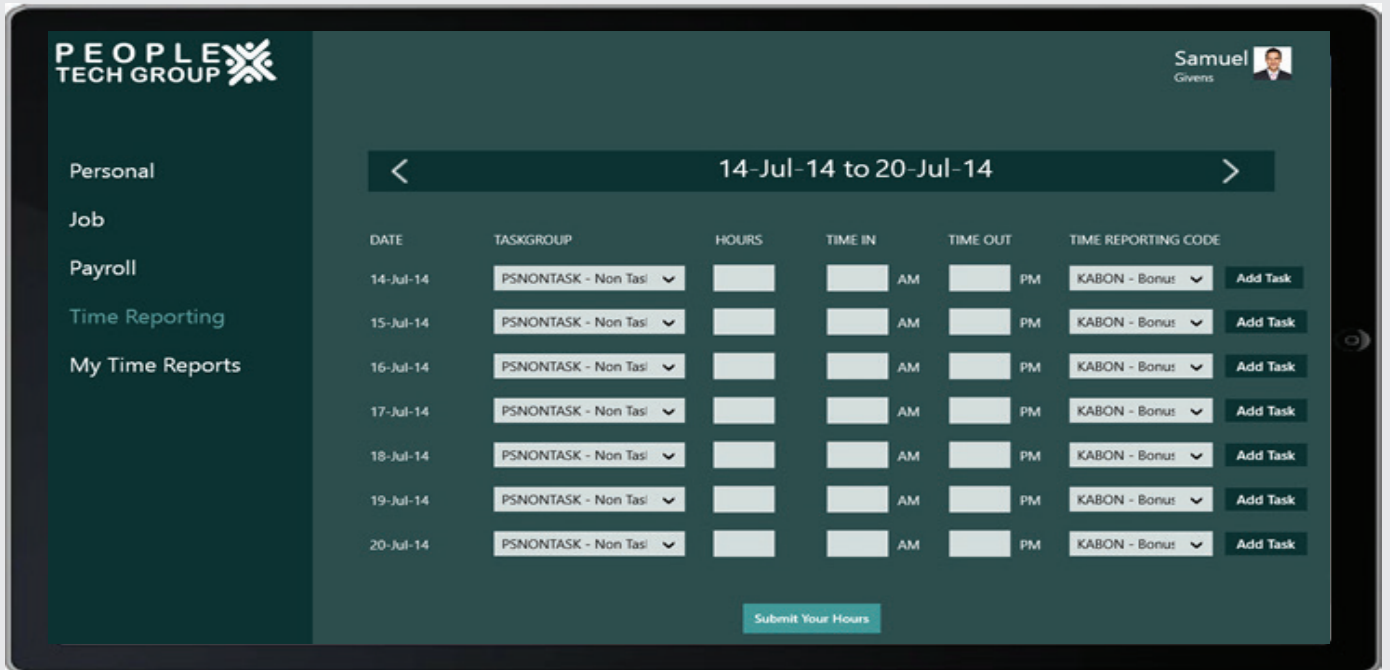

Adapter    Business Rules    Business Process    Routing    Workflow

On-Premise    Oracle    PeopleSoft    ERP Suite

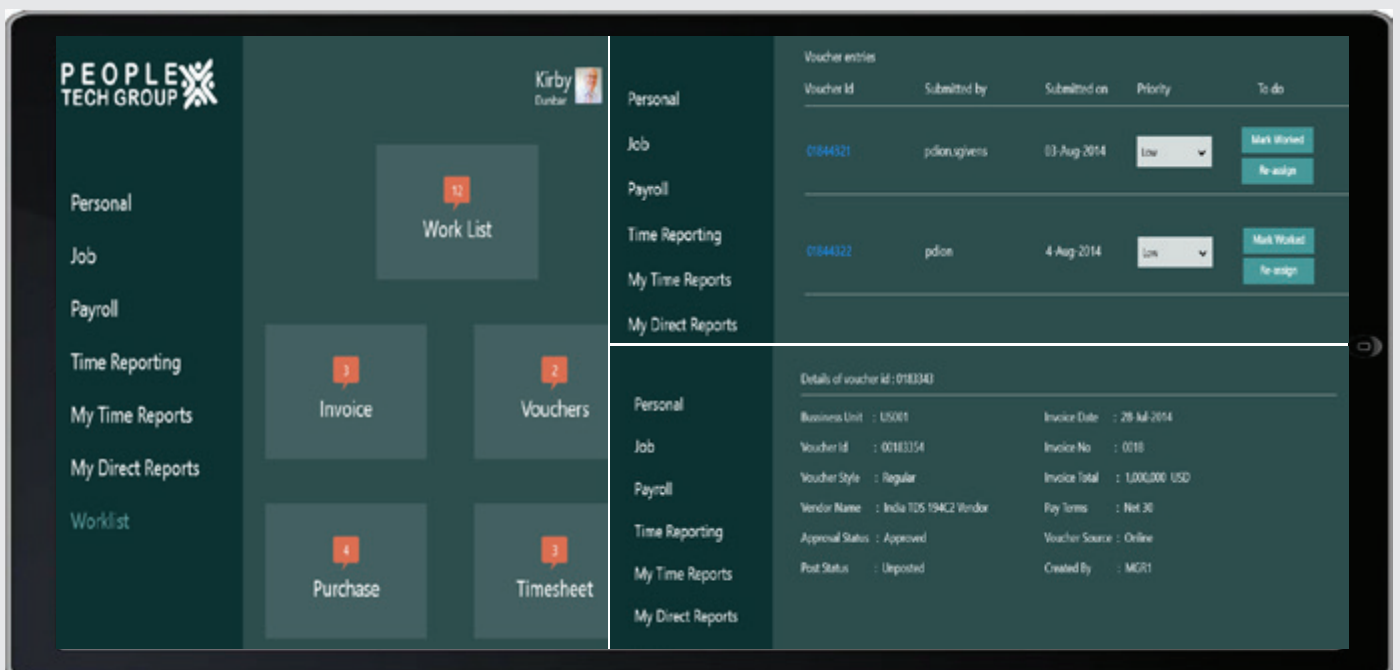

## PEOPLESOFT TIME ENTRY:

People Tech's PeopleSoft On-mobile application was first showcased in NWRUG (Seattle) to a rousing response. The application then consisted only PeopleSoft HR Time Entry and Manager Approval.

## APPROVAL WORKFLOWS IN PEOPLESOFT:

The PeopleSoft Workflow approvals invokes the Approval Workflow Engine configured within PeopleSoft which enables users to submit and managers to approve/deny accordingly.

## SUPPORT MOBILE DEVICES:

PeopleSoft Mobile Applications have been tested for the following mobile devices:

Android Phone (Samsung Galaxy SIII)

Apple iPhone 4 & 4S (iOS 5.1)

Apple iPad 2 and iPad 3 (iOS 5.1)

Google Nexus Tablet (Android Jelly Bean)

Samsung Galaxy Tablet 10.1 (Android Honeycomb)

## MERITS:

- Highly advised for travel and business consultants to work on the go
- User experience is superlative because of the response time
- Uses PeopleSoft delivered sign-on authentication thus installation is restricted to employees within the organization
- Mobile approval process has never been this easy before
- Custom built exposing Integration Broker web services using delivered PeopleSoft objects
- One-click download and install with periodical updates can be setup within the Intranet of any organization or over the Internet
- Available for PC/Tablet/mobile devices in all leading operating systems Win8/ Android/iOS/Blackberry
