

Where there are Questions We provide Answers

Overview

People Tech Group was established in 2006, with its Headquarters at Bellevue, Washington. While the principal focus of the promoting directors was enterprise applications, now People Tech Group provides a broad portfolio of business and technology solutions to help our clients worldwide meet their business goals.

Capabilities

Our capabilities spread across Application Development & Management, Portal Services, Verification & Validation, ERP Solutions, Business Intelligence & Data Warehousing, and Cloud Computing Services. We also provide innovative solutions over varied technology domains enabling our client's success in their business goals.

Talent

Our well-trained and motivated talent pool works cohesively to deliver solutions based around a mature global delivery model to clients across the globe. The dedicated efforts of the team at People Tech Group over the years have resulted in recognition from technology principals such as Microsoft, Oracle and SAP and has since been identified as Gold Certified Partner for Microsoft Technologies as well as Oracle.

Global Footprint

People Tech Group has a growing global presence, with development centers at Washington, Chicago, and Pittsburg in the US, and at Hyderabad, and Bangalore in India. Our distributed delivery models encompassing pure as well as blended offshore, onsite, near-shore models to meet the specific requirements of each of our clients.
